SUMMARY

This is a beautiful finca, with lots ranging from 2000 m2 and way up...They are priced very well and there is financing as well! There are oceanviews on some lots, and based on your price range there is basically something for absolutely everyone. The owner is subdividing lots for buyers based on what they want to spend and how much land they want. You are a short drive to the beautiful white sand beaches of Santa Teresa, and Hermosa. This is a great option for country living at a great price, super quiet and relaxed area, safe and far from the noise, but still just a few clicks to the beach and dining, shopping, etc.
