PRICE: USD 205,000

SUMMARY

What a steal!!! This is an excellent price for a beautiful beachfront piece of property. It has a building site on the flat part near the beach, then a plan for a building site with ocean views at the top. It measures just over 2000 m2, or a 1/2 Acre, and is currently the best priced beachfront parcel that we have to offer. Please see this lot before deciding on anything else, it's a screaming deal!
