Luxury cabins and motel are perfect for those who are looking to make an income while still enjoying tropical landscapes. There are four luxury cabins with two bedrooms and one bath, which are perfect for vacationers. The open concept of the cabins is perfect, but the bedrooms are separated. The cabins do have fully equipped kitchens and living rooms that have high-speed internet, cable TV, and a private terrace that is covered. The cabins are surrounded by a tropical garden that shows the true exotic nature of the landscape. The cabins are located within the back of the property and are found the closest to the beach. The hotel has eight rooms and it is a two-story building. It comes with a swimming pool and an open-air restaurant. This property also has a two-bedroom property manager residence which allows you to have a live-in manager to maintain the day to day of the property. This location is perfect as it is close to Marina Ballena
